(such as your *distributor*), including at the direction of a relevant authority.

- (b) To the extent permitted by law, we give no condition, warranty or undertaking, and we make no representation to you, about the condition or suitability of energy, its quality, fitness for purpose or safety, other than those set out in this *contract*.
- (c) Unless we have acted in bad faith or negligently, the *National Energy Retail Law* and *Rules* exclude our liability for any loss or damage you suffer as a result of the total or partial failure to supply energy to your premises, which includes any loss or damage you suffer as a result of the defective supply of energy.

10.2 Australian Consumer Law guarantees

- (a) The *Australian Consumer Law* requires us to automatically provide certain guarantees in relation to goods and services which cannot be excluded by contract. If any goods or services supplied under this *contract* are supplied to you as a 'consumer' within the meaning of that term in the Australian Consumer Law or relevant jurisdictional legislation, you will have the benefit of certain non-excludable rights and remedies in respect of the goods or services (*Consumer Guarantees*), including guarantees that services are provided with due care and skill, and that goods are of acceptable quality.
- (b) Nothing in this *contract* excludes, restricts or modifies the operation of the *Consumer Guarantees* where to do so would contravene the *Australian Consumer Law* or cause any part of this clause to be void.
- (c) However, if the goods and/or services are goods or services not ordinarily acquired for personal, domestic or household use or consumption, and the price of the goods or services is \$AUD40,000 or less, ActewAGL limits its liability for breach of any *Consumer Guarantee* to (at ActewAGL's option):

- (i) in the case of goods, repairing or replacing the goods or paying the cost of having the goods repaired or replaced; and
- (ii) in the case of services, supplying the services again, or the cost of having the services supplied again.

- (d) Except for the *Consumer Guarantees* and any requirements under the *National Energy Retail Law* and *Rules* and the warranties and conditions set out in this *contract*, ActewAGL excludes all warranties, terms and conditions implied by statute, at law, in fact or otherwise.
- (e) However where a failure to comply with a *Consumer Guarantee* can be remedied, and is not a *major failure*, we may comply with a requirement to remedy that failure as set out in paragraph (b).
- (f) You must indemnify us against any injury, loss or damage suffered by a third party in connection with your use of natural gas and electricity and claimed against us to the extent that the injury, loss or damage is caused by or contributed to by your negligence or your breach of this *contract*.

- (b) Our supply of a *GreenPower Product* will be governed by the terms and conditions of this *contract*.
- (c) The charges for a *GreenPower Product* will be in addition to the charges payable for electricity under this *contract*.
- (d) You may at any time, by notice in writing, elect to take a different *GreenPower Product*, or cease to take a *GreenPower Product*. Unless stated in an offer, no fees or charges are payable if you exercise your rights under this clause. Any rights or benefits arising in relation to the purchase of a *GreenPower Product* under this *contract* will remain with us, and you will

not be entitled to any of those rights or benefits as a result of you purchasing a *GreenPower Product* under this *contract*.

12. NOTIFICATION OF CONTRACT VARIATIONS

We may vary the terms of this *contract*, including our *market offer prices*. We will give you notice of the variation in accordance with clause 13.5.

13. PRICE FOR ENERGY AND OTHER SERVICES

13.1 What are our tariffs and charges?

- (a) Our tariffs and charges for the sale of energy and other goods and services to you under this *contract* are our *market offer prices*. These prices are set out in the *Basic Plan Information Document* and *Schedule of Charges* and include your *distributor's* charges. They are also available on our website.
- (b) Different tariffs and charges may apply to you depending on your circumstances. The conditions for each tariff and charge are set out in the *Basic Plan Information Document*.

13.2 Variation of market offer prices

We may vary our *market offer prices* to reflect any increase in our cost of purchasing, selling or supplying natural gas or electricity (including costs arising from increased price risk and our costs of minimising or meeting that price risk) due to:

- (a) a change in the cost that we are compelled to pay for bulk energy purchases that are referable to the supply of natural gas and/or electricity to small customers either as a separate class or as part of a larger grouping of our customers;
- (b) any increase in the distribution charges and/ or metering charges applicable

to the supply of natural gas and/or electricity to your premises;

- (c) the introduction of, change in or reasonable estimate of any taxes (including GST), costs, fees, imposts, duties, levies, charges or financial burdens ("costs") payable by us directly or indirectly in relation to:
 - (i) the generation, production, transmission, transportation, distribution, purchase, sale, supply or retailing of electricity or natural gas;
 - (ii) other goods and services provided under this *contract*;
 - (iii) any new or increased obligation, where such costs in any way arise from or are related to:
 - (A) reducing or limiting the concentrations or rate of release of greenhouse gases including carbon, or the production or release of materials likely to contribute to the creation of such substances;
 - (B) encouraging the provision of renewable energy, including, without limitation, the costs of acquiring renewable energy certificates;
 - (C) the acquisition or trading of greenhouse gas or carbon emission or sequestration units, credits or permits (howsoever described);
 - (D) offsetting greenhouse gas or carbon emissions,
 - (iv) through imposing upon us or any electricity or natural gas generator, producer, transmission authority, transporter (including pipeline operators), wholesaler, *distributor*, retailer or any other party involved directly or indirectly in us obtaining, distributing or selling electricity or natural gas any incentives,

imposts, fees, costs, taxes, charges, duties, levies or financial burdens (impost), whether such impost exists at the time of entry into this *contract*, including any subsequent modification or change and whether the impost in whatever form arises or is imposed by *regulatory requirements* or by or in relation to a third party contract.

13.3 Variation of applicable tariff category

- (a) The continued application of the category of tariff that formed the basis of the *market offer* and charges payable under your *energy plan* depends on:
- (i) you continuing to satisfy conditions applying to that category of tariff;
 - (ii) the continued availability of the corresponding distribution tariff from your *distributor* in relation to your premises; and
 - (iii) the continued availability of the required or selected *meter* type.
- (b) You must inform us if there is a change in:
- (i) the nature of your energy usage at your premises;
 - (ii) the *meter* installed at your premises; or
 - (iii) any other circumstance which impacts on your ability to continue to satisfy conditions applying to your current category of tariff.
- (c) If we become aware of any change in:
- (i) your ability to satisfy conditions applying to your current category of tariff (whether or not you inform us of such a change); or
 - (ii) the distribution tariff the *distributor* applies in relation to your premises, we may transfer you to a different category of tariff from the time of that change, which may result in a variation to your charges from that time. Where this results in you having

been undercharged or overcharged on a bill, clause 18.1 (Undercharging) or 18.2 (Overcharging) will apply.

- (iii) We will notify you of any variation to your charges under this clause 13.3 in accordance with clause 13.5 and you may elect to terminate this energy plan in accordance with clause 5.3(b).

13.4 Availability of alternative tariffs.

Depending on the *meter* configuration and availability at your premises and the availability of alternative tariffs offered by your *distributor*, we may offer different tariffs for the consumption of energy at your premises, including feed-in tariffs for electricity you generate at your premises or consumption tariffs with a different rate for controlled load storage heating, off-peak hot water or any eligible off-peak appliances.

13.5 Notice to you of variation of our market offer prices

- (a) If we vary our *market offer prices* including your rates, fees, feed-in tariff or charges under this clause 13, we will
- (i) notify you at least five business days before the variation in the tariffs and charges are to apply to you; and
 - (ii) deliver the notice by your preferred form of communication where you have communicated this to us, or otherwise by the same method as that used for delivery of your bill.
- (b) The notice must:
- (i) specify that your tariffs and charges are being varied;
 - (ii) specify the date on which the variation will come into effect;
 - (iii) identify your existing tariffs and charges inclusive of GST;
 - (iv) identify your tariffs and charges as varied inclusive of GST;
 - (v) specify that the tariffs and charges identified in paragraphs (b)(iii) and (iv) are inclusive of GST; and

(vi) specify that you can request historical billing data and, if you are being sold electricity, energy consumption data, from us.

(c) Despite this clause 13.5, we are not required to provide a notice under paragraph (a):

- (i) where the variations to the tariffs and charges are a direct result of a change to, or withdrawal or expiry of, a government funded energy charge rebate, concession or relief scheme; or
- (ii) where the variations to the tariffs and charges are a direct result of a change to any bank charges or fees, credit card charges or fees, or payment processing charges or fees applicable to you.

(d) Despite paragraph (a)(i), we will provide you with the notice under paragraph (a) as soon as practicable, and in any event no later than your next bill, where the variations to your tariffs and charges are a direct result of a tariff reassignment by the distributor pursuant to clause 6B.A3.2 of the NER. For the purpose of providing a notice under this paragraph (d), the reference to:

- (i) “are being varied” in paragraph (b)(i) is taken to be “are being varied or have been varied (whichever is applicable)”; and
- (ii) “will come into effect” in paragraph (b)(ii) is taken to be “will come into effect or has come into effect (whichever is applicable)”.

(e) We may also provide notice to you for the purposes of this clause 13.5 by publishing the notice in the newspaper or on our website or including a notice with a link to our website with your next bill after the variation.

13.6 Variable rate energy plans

(a) Unless your *energy plan* rates are fixed rates, we may vary your rates or

introduce a new rate by giving you notice in accordance with clause 13.5. This may occur after we arrange a *smart meter* to be installed at your premises.

13.7 Variation to market offer prices due to incorrect information or meter change

(a) If we determine that the *market offer* made to you was based on incorrect information and:

(i) as a result, any of our market offer prices set out in the *Basic Plan Information Document* and *Schedule of Charges* are incorrect; and

(ii) we do not terminate this *contract* under clause 4 (Eligibility for this Market Contract) we will provide you with notice of the correct *market offer prices* that apply to your *energy plan* under this *contract* in accordance with *regulatory requirements*.

(b) If we vary our *market offer prices* under this clause 13.7 you may terminate this contract under clause 5.3(b) without paying any otherwise applicable exit fee.

13.8 Variation to market offer prices due to increase in pass through costs

(a) To the extent permitted by *regulatory requirements*, we are entitled at our discretion to pass through to you any increases in:

(i) taxes;

(ii) charges imposed by government or energy market regulatory bodies;

(iii) metering charges;

(iv) charges to reasonably reflect any change in the applicable loss factors provided by AEMO in relation to electricity that is lost through the transmission and *distribution systems* on the way to the premises, where those increases relate to the supply of natural gas and/or

electricity by us to you and at a rate that apportions to you an appropriate allocation of the cost increase.

- (b) Our *market offer prices* may be varied in accordance with any pricing decision, approval or determination by a regulatory body to the extent the decision, approval or determination relates to our *market offer prices*.

13.9 Variation of market offer prices due to Consumer Price Index increases
